Managing Director

Planning Your Kitchen Makeover

We aim to help you bring your existing kitchen up to date whilst keeping the existing cabinets.

We have a wide range of colours to choose from to replace your existing doors and drawer fronts. We will also replace the pelmets, cornice, and plinths to match the colour and design of your new door choice. So, at the end the kitchen will look a brand new kitchen but at the fraction of the Cost.

The other advantage of having a kitchen revived is the disruption, to replace just the kitchen doors there is little disruption and will only take a day to complete. In some cases you don't even have to empty your cupboards.

Have look at the colours and door styles available on the following pages.

We also have a large range of worktops from laminates to solid surfaces. We also specialise in an overlay worktop that fits directly on top of your existing worktop – ask for more information.
